

EXPERIMENT 2- Setting up a Zoho Creator account and exploring the platform architecture and interface.

Name: KAVIYA E

Roll no: 240701247

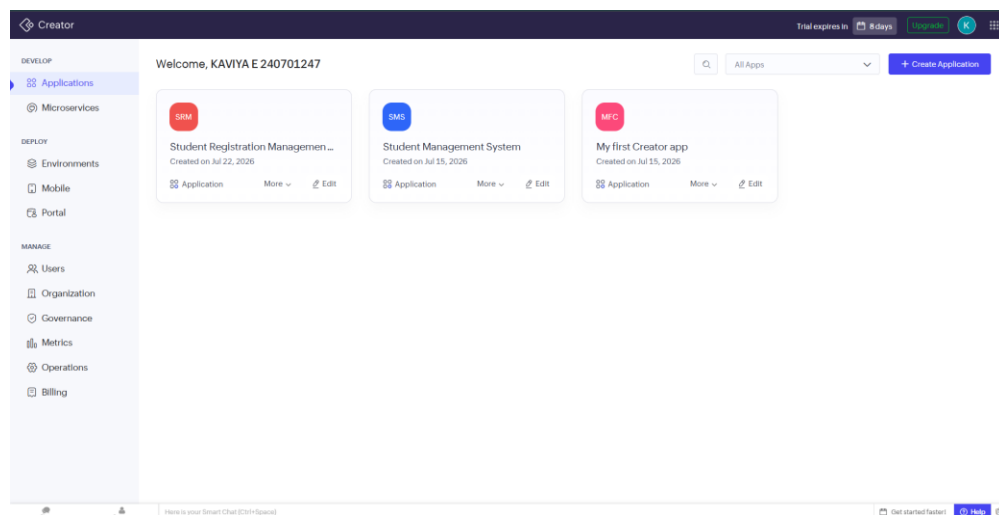

Aim:

To set up a Zoho Creator account and explore the platform's architecture, interface, and basic features for low-code application development.

Setting up Zoho Creator:

(i) Create a sample application

1. Sign in to Zoho Creator.
2. Select the Demo Application provided during sign-up or create a new sample application.
3. Give the application a name and description.
4. Add forms to collect data.
5. Save and run the application.

(ii) Screenshot of form, reports and dashboard

The screenshot shows the 'Add Order' form within the 'My first Creator app'. The form is titled 'Add Order' and includes a 'Creator tip' and a 'Note'. The form fields are as follows:

- Customer Name: Two input fields for First Name and Last Name.
- Product Ordered: A single-line text input field.
- Quantity: A text input field with a placeholder '#####'.
- Order Date: A date input field with a placeholder 'dd-MM-yyyy'.
- Est. Delivery Date: A date input field with a placeholder 'dd-MM-yyyy'.
- Status: A dropdown menu with a placeholder '-Select-'.
- Next Action: A dropdown menu with a placeholder '-Select-'.
- Notes: A text area for additional information.

At the bottom of the form are 'Submit' and 'Reset' buttons. The sidebar on the left shows the app's navigation menu with options like Home, All Orders, and Add Order.

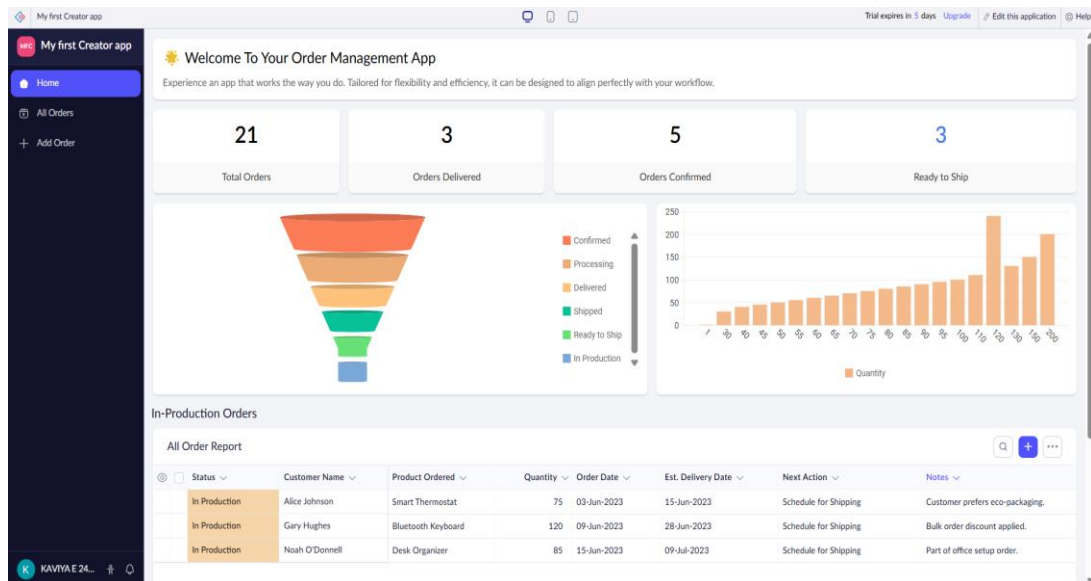

The Add Order form is used to capture and manage customer order details in the Order Management System. It includes fields such as Customer Name, Product Ordered, Quantity, Order Date, Estimated Delivery Date, Status, Next Action, and Notes. After entering the required information, the user can submit the form to save the order details, which are then stored and displayed in the application reports.

The screenshot shows the 'All Order Report' page within the 'My first Creator app'. The report is displayed in a tabular format with the following columns:

Status	Customer Name	Product Ordered	Quantity	Order Date	Est. Delivery Date	Next Action	Notes
Confirmed	Kaviya E	Facewash	1	15-Jul-2026	31-Jul-2026	Finalize Shipping Details	facewash product
Processing	Jane Doe	Eco-Friendly Charger	100	01-Jun-2023	10-Jun-2023	Confirm Inventory	Priority delivery requested.
Confirmed	John Smith	Solar Backpack	50	02-Jun-2023	12-Jun-2023	Assign to Fulfillment	Include promotional leaflet.
In Production	Alice Johnson	Smart Thermostat	75	03-Jun-2023	15-Jun-2023	Schedule for Shipping	Customer prefers eco-packaging.
Ready to Ship	Bob Brown	Wireless Earbuds	200	04-Jun-2023	18-Jun-2023	Finalize Shipping Details	Expedited shipping required.
Shipped	Carol White	Fitness Tracker	150	05-Jun-2023	20-Jun-2023	Update Customer	Delivery by courier.
Delivered	David Green	LED Desk Lamp	80	06-Jun-2023	22-Jun-2023	Request Feedback	First-time customer.
Processing	Ethan Foster	Portable Charger	60	07-Jun-2023	24-Jun-2023	Confirm Inventory	Check compatibility with devices.
Confirmed	Fiona Graham	Wireless Mouse	40	08-Jun-2023	25-Jun-2023	Assign to Fulfillment	Special packaging requested.
In Production	Gary Hughes	Bluetooth Keyboard	120	09-Jun-2023	28-Jun-2023	Schedule for Shipping	Bulk order discount applied.
Ready to Ship	Hannah Irvine	Smartwatch	90	10-Jun-2023	30-Jun-2023	Finalize Shipping Details	Gift wrapping required.
Shipped	Ian Jasper	Tablet Case	110	11-Jun-2023	01-Jul-2023	Update Customer	Fragile item, handle with care.
Delivered	Kelly Knox	Laptop Stand	70	12-Jun-2023	03-Jul-2023	Request Feedback	Ensure timely delivery.
Processing	Liam Murphy	USB Hub	130	13-Jun-2023	05-Jul-2023	Confirm Inventory	Fast delivery requested.
Confirmed	Mia Nelson	Ergonomic Chair	30	14-Jun-2023	07-Jul-2023	Assign to Fulfillment	Check for color availability.
In Production	Noah O'Donnell	Desk Organizer	85	15-Jun-2023	09-Jul-2023	Schedule for Shipping	Part of office setup order.
Ready to Ship	Olivia Parker	Monitor Arm	95	16-Jun-2023	11-Jul-2023	Finalize Shipping Details	Include installation guide.
Shipped	Paul Quinn	Webcam	65	17-Jun-2023	13-Jul-2023	Update Customer	Required for remote work setup.

The report includes a search bar and a 'Showing 21 of 21' indicator at the bottom. The sidebar on the left shows the app's navigation menu with options like Home, All Orders, and Add Order.

The All Order Report page displays all the orders entered through the application in a tabular format. It includes details such as customer name, product ordered, quantity, order date, estimated delivery date, order status, next action, and notes. This report enables users to easily view, search, filter, and manage order records, making order tracking and monitoring more efficient.

The Dashboard provides an overview of the Order Management System by displaying key order statistics such as total orders, delivered orders, confirmed orders, and orders ready to ship. It also includes graphical charts and reports that help users monitor order status and track overall performance. The dashboard enables quick analysis of order activities and supports efficient decision-making.

3. Exploring the Platform Architecture and Interface:

Zoho Creator provides three main sections for application development and management:

A. Develop The Develop section is used to build and customize applications.

Components:

Forms: Collect and store user data efficiently.

Reports: View, filter, and analyze stored data.

Pages: Create custom interfaces by combining multiple components.

Workflows: Automate tasks based on predefined conditions.

Functions: Write custom scripts using the Deluge programming language.

Dashboards: Display data visually using charts and reports

B. Deploy The Deploy section is used to publish and share applications with users.

Components:

User Access: Controls who can access the application.

Permissions: Defines the actions users are allowed to perform.

Publishing: Makes the application available on web and mobile platforms.

Sharing: Enables applications to be shared with team members or external users.

C. Manage The Manage section is used for administration and maintenance of applications.

Components:

- Users: Manage application users and roles.
- Data Management: Import, export, and maintain records.
- Audit Logs: Track user activities and system changes.
- Backup & Restore: Protect application data from loss.
- Settings: Configure application preferences and security options.
- Performance Monitoring: Monitor application usage and efficiency.

Result:

The Zoho Creator platform was successfully explored by creating a sample application, form, report, and dashboard. The Develop, Deploy, and Manage modules were studied, and their functionalities in low-code application development were understood successfully.
